Life-Sustaining Business Classification

Today, through Executive Order, Governor Tom Wolf ordered that all non-life-sustaining businesses must close by 8:00 PM this evening. Enforcement actions will be taken against those which do not follow the order.

This evening, we have received confirmation from the Pennsylvania Department of Agriculture, the regulatory agency that oversees the pest control industry in the Commonwealth, that pest control services may continue physical operations.

The executive order clearly states that those businesses which are life-sustaining and remain open must, "at a minimum, the social distancing practices and other mitigation measures defined by the Centers for Disease Control to protect workers and patrons." See the helpful links below.
